

Bingham

Mr. and Mrs. W. W. Gilbaugh were up from Racket last Wednesday.

Mr. and Mrs. Charley Mason made a trip to Lakeside last week with a view of locating there.

Mrs. J. E. Marr, went to Aurora last Thursday after a few days spent there with relatives she will go to Arkansas for an indefinite period.

Joe Ballard, Harry Harp and Ellis Kincaid were among the Alliance visitors from Bingham last week.

Mrs. Ruth McCarty had the misfortune to fall on the stairs the last of the week receiving painful bruises.

Mrs. Madden spent a few days in Alliance last week returning Sunday.

Among the shippers this week were J. H. Fricklin, J. T. Burton, William Welch, W. W. Gilbaugh and W. H. French.

Mrs. D. C. Ballard and her father Mr. Guy went to Alliance Monday to visit Evelyn who is still in the hospital but who is a little better at this time.

Mr. and Mrs. J. G. Fricklin are spending the week in Omaha and in their old home in Missouri. The children are staying in town during their absence.

Mr. and Mrs. Diles Howell are in Alliance where she is receiving medical aid at the hospital.

On account of none of the resident from this part of Sheridan county being able to attend the celebration in honor of the soldiers leaving for the front, M. L. Kincaid sent kindly words of greeting to the boys in behalf of our residents and Red Cross.

The Bingham Red Cross sales are becoming popular. Last Friday a number attended Mr. Mitt's public sale and served dinner and lunch which netted them \$84.50. Mr. Sebohm of Elsworth donated a sheep which was very much appreciated. They have been asked to furnish lunch for another sale in two weeks.

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 600 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

STAFF OF HIGH SCHOOL SPUD

The organization of the staff of the high school Spud for the coming year has been completed and is as follows:

Ethel Clary, editor in chief.
Grace Spacht, assistant editor.

Jordan Robinson, Business manager.

Ray Butler, assistant business manager.

Lena Jamison, subscription editor.

Frances Collins, assistant subscription manager.

Ray Edwards, organization.

Howard Bennett, boys' athletics.

Buelah Eadish, girls' athletics.

Arthur Dillon, staff artist.

Jerome Fleming, assistant staff artist.

Aeneas Schill, exchange editor.

RECORD OF THE PAST

No Stronger Evidence Can Be Had in Alliance

Look well to their record. What they have done many times in years gone by is the best guarantee of future results. Anyone with a bad back; any reader suffering from urinary troubles, from kidney ill, should find comforting words in the following statement.

Mrs. Celia Weaver, 122 Yellowstone Ave., Alliance, Says: "I was troubled by kidney complaint for some time and learning of Doan's Kidney Pills, I began taking them, procuring them at Holsten's Drug Store. I can say in all earnestness that they can't be excelled for curing backache and kidney ailments. It took Doan's only a short time to rid me of severe pains in the small of my back and after that I could stoop and straighten without suffering."

The above statement was given July 20, 1910, and on June 7, 1916 Mrs. Weaver said: "I seldom have need of Doan's Kidney Pills now, as I am never troubled the way I was

before using them. I take a few now and then, however, and they always drive off any threatened return symptoms and keep me in good health."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Weaver had. Foster-McBarn Co., Mfrs., Buffalo, N. Y. Adv—Sep

HELP WANTED TO SAVE SUGAR CROP

Scottsbluff, Gering and Mitchell Commercial Clubs Ask for Help to Save Nebraska Sugar Crop

There are more than one thousand three hundred farmers growing beets in the North Platte Valley this year. Many of them need teamsters and other labor, and quite a number need extra teams to harvest and deliver four hundred and fifty thousand tons of beets. They are offering exceptionally high wages.

The harvest will begin October 1st and continue daily until November 15th or later. Any men who desire to obtain work either with or without teams, should write or telephone at once to one of the following public organizations:

The Scottsbluff Commercial Club, Scottsbluff, Nebraska.
The Gering Community Club, Gering, Nebraska.
The Mitchell Community Club, Mitchell, Nebraska.

GERING MAN INVENTS A NEW WINDMILL

Gering Courier:

An invention that bids fair to revolutionize the windmill business is now being perfected here in Gering. W. R. Twiford is the inventor and together with the Twiford-Stewart Investment Co., is pushing the invention and have just completed a large model of the new "wind motor" as they call it. Unlike the ordinary mill, the wheel of this motor is mounted on a vertical shaft and turns in a horizontal position like a merry-go-round. The diameter of the main wheel is ten feet. Five large fans, four by six feet square, are mounted on a pivot on the rim of the wheel and are geared to the vane in such manner that they automatically adjust themselves to catch all the wind possible as the wheel revolves. To prove how perfect the principle is upon which these fans work, on a test, four of the five fans were left off yet the wheel ran right along in a fifteen mile breeze with but the single fan. The chief advantage lies in the fact that it will furnish more than twice the power

(same size wheel) as the ordinary windmill. It also adjusts itself readily to a change of wind, can be shut off and has a small governing vane that regulates the speed in high winds. The inventor claims this motor will make it possible to irrigate uplands as cheaply as valley lands are now irrigated by ditches. If the supply of water can be found, it does not matter how deep the well may be, for there is no limit to the size in which this motor can be built. A wheel fifty feet in diameter the outer rim of which would run on a track to support the weight, would have seven large fans, ten by twenty feet square, made by stretching sail canvas over a steel wood frame. In time of storm these sail would be furled the same as they are on a ship. Such a wheel would easily run a threshing machine or pump water sufficient to irrigate a large area. A small model of this invention was shown to the heads of the mechanical department of the state university and they agreed that such a motor was sure to furnish great power. The promoters, instead of selling the patent, expect to form a stock company for the purpose of manufacturing the motor.

The Bell Telephone is for Uncle Sam First

At the very beginning of the war, the service, the equipment and the men of the Bell Telephone System were placed, unreservedly, at the disposal of the government.

Skilled telephone men, telephone switchboards, poles, wire and telephone instruments have been turned over to the government as needed at army headquarters, in military training camps and for signal corps service in the field.

You can "do your bit" by asking only for telephone equipment you must have and making only such local or long distance calls as are absolutely necessary.
